Description:

Redens Eliza is a good looking bay black Golden Age daughter pregnant to Redens AGAmemnon. In 2023 with the same mating she produced an excellent daughter Redens Havana. Eliza birthed easily with a classic first birth and proved herself to good mother as her daughter Havana has grown really well. Eliza has an excellent conformation with a bright fleece that feels lovely and soft. The combination of a Golden Age daughter pregnant to AGA should result in an another impressive cria in 2024 . We are delighted with the consistent high quality of AGA's cria.
