Description:

This BC2 male has blue black fleece with excellent lustre, and is passing it on to his progeny. Lightly used by us because of using his sire extensively. We are using him to put lustrous black genes into progeny of lighter coloured animals. 5 progeny, all suri over crosses.

Excellent conformation, with wide chest and solid straight legs. His son Tularosa Lazy Days had best black suri fleece at National this year. Leasing for several months is another option.

Prizes Won:

Best black fleece at Colourbration 2014 (as an intermediate)

Tularosa Kamikaze

Kamikaze- best black suri fleece Cbration 2014
