Description:

Beck Brow Moves Like Jagger is a son of the renowned Bozedown Blaze of Glory and has the same robust frame and great presence. He is conformationally correct in every way.

He has retained a very good level of fineness into his third fleece and good uniformity of micron. His fleece is dense and exhibits highly aligned small staples across his blanket and into the extremities

Moves Like Jagger's dam is a broad ribbon-winning fawn daughter of Goldmine. We are delighted to have crossed these two lines with such success and can now cross MLJ back over our Explorer daughters. MLJ has colour tested ee Aa and therefore has the potential to produce colour from coloured dams.

Moves Like Jagger is now working and will be kept largely in-house. Pregnant females may be available to purchase.
