(Genomen op 3/06/2008 op de leeftijd van 1 Jaar en 3 Maanden )

**Wolanalyse-organisatie:** Yocom-McColl Testing Laboratories

### Omschrijving:

Tessa has developed into a stunning young female. She is now bred, at her request, to our gorgeous full Bolivian dark fawn boy, Major-B. He is one of only a few studs directly from Acero Marka bloodlines. His fibre stats on March 11, 2003 were AFD 19.5 SD 4.5 CV 22.8 with 1.9 microns over 30. On April 14, 2004 his fibre stats were AFD 22.1 SD 5.5 CV 24.8 with 5.2 microns over 30. Add this to her multi ribbon winner, Almanzo's, attributes and this cria should be a knockout. If you are looking to add a quality fibre female to your herd do not pass Tessa up.
