### Beschreibung:

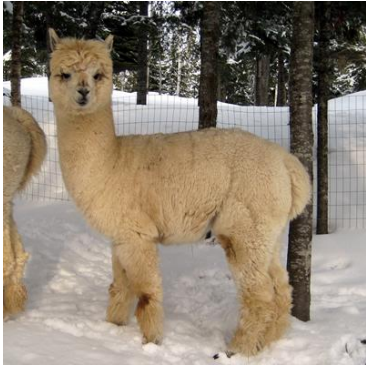

Scimitar is an amazing male; he was covered in tight curls at birth and his fleece as only gotten better with time. His fleece displays density and fineness, with tight crimp from his nose to his toes. Scimitar is a very curious, friendly young fellow, and has developed into a fine young male.

Scimitar's sire is HA Mikimoto, son of the renowned Canadian herdsire Victor's Vaccoyo. His dam, Anastasia, is a full Bolivian female. Her fleece is very dense with a long staple length and she shears 8 lbs of fleece at each shearing.

Scimitar is ready to start his breeding career and will undoubtedly enhance the quality of your herd.
