Description:

Solid white girl with a lovely pedigree. Her fleece is quite characterful and she has incredible staple length. She will give a heavy cut we are sure. A first release of Mirage genetics into the market place.

Her mother has produced a stud male 'toft garam masala' and she is maintaining unreal fineness for her age ~27 micron at 11+ years old.

Her sire - Mirage is having great success in the show ring with his progeny.

A beautiful girl that has enormous potential.
