Colour: Medium Fawn (Solid Colour) Registered With: ARI #: 30907348

CLAA #: 37570

Blood Lineage: Chilean

Date of Birth: 19th August 2008

Description:

If you are looking for colour, Honey Bun is your girl. She is dark fawn colour with grey fleece on her face!! This girl is a color wildcard with black and grey on both sides of her pedigree. We were hoping for a black cria and were surprised when she emerged a fawn colour. Isn't this what makes breeding for colour so interesting?

The architecture of Honey Bun's fleece is very good and her density is excellent. She will certainly add colour and quality fleece to your breeding program.

Honey Bun has been bred to true black herdsire, Birchleaf Xxtreme, for a 2012 cria.

Name of covering male: Birchleaf Xxtreme (Black)

Number of Crias bred from female: 1

HTO Honey Bun

Full Fleeced
