**Enregistrer sur:** CLAA: pending

**ARI:** 32750621

**Lignée:** Mixed

**Date de naissance:** 17/08/2011

### Description:

Lunar Eclipse is growing into a fine young male. He has superb true black fleece; very dense, crimped and bright. This is so surprising, as both his dam and sire are 1st place winners in the show ring.

Lunar Eclipse's sire is Birchleaf Xtreme, a true black Reserve Champion, who is proving he can produce superb dark coloured crias when bred to females of all colours. Xtreme's pedigree includes such well known champions as RFA Turk and Jolimont Peruvian Ivano.

Lunar Eclipse's dam is Luna, a silver grey female, with lots of black and grey in her background. Luna's dam, Lightning, retained a fleece micron count in the low 20s well into her older years and Luna is following her lead.

We are excited about Lunar Eclipse and are keeping a close eye on his development; we have great hopes for him in the future. He will be shown in the spring of 2012.
