Geboortedatum: 21/07/2011

Omschrijving:

Moxie is a true black female with extremely dense fleece and total coverage and tight crimp. She is the friendliest cria with a very calm temperament. She has developed into a fine young female and may be ready for breeding in the summer of 2012.

Moxie's pedigree includes strong black and grey lines on both her dam and sire's background. Her dam, Honey Bun, is the daughter of VLA Ebony, a true black herdsire. Her sire is Xtreme, a true black herdsire and Reserve Champion who has sired numerous quality, true black crias for us.
