**Description:**

Affectionately called Mickey Blue Eyes, Ayrton is the friendliest young male in the farm. Great conformation and disposition, very nice fleece and lovely blue eyes! Of course, whilst attractive, it is not deemed advisable to breed from alpacas with blue eyes, so he is destined to be a companion, pet or guard, but not a stud! Ayrton is from our herd matriarch Bozedown Aleaka, who has given us lovely offspring, including champion Artwork Dorian. In fact, Ayrton is from the same sire, the Futurity champion Alpaca Stud Nyetimber, son of the top UK sire Alpaca Stud Jaquinto. So, undoubtedly, Ayrton?s credentials are fantastic, but nevertheless, not to be bred from.
