Description:

A very smart young lady, Aida is an upstanding and well grown white female, having inherited the impressive conformation of her dam, Meon Valley Athena. With an excellent pedigree which includes impeccable Snowmass genetics, her Sire, Snowmass Royal Vision has a beautifully well organised fleece with remarkable uniformity across the entire body and Aida seems to have inherited such trait together with a lovely soft handle. Aida is halter trained and would be ready to breed this summer. We would suggest a breeding to one of our other Snowmass males to reinforce her outstanding genetics, and she is indeed offered with the benefit of such mating.
