

Description:

Dynamo is an offspring from our favourite black dam, Inca Definition. A descendant from Canchones Witness and Inca Briar Hill, a daughter of Cambridge Centurion, Definition has given us some fantastic progeny, including the multi champion Artwork Dolores and Artwork Domingo, both at our farm. Dynamo?s Sire needs no introduction, being the very handsome Snowmass Midnight Momentum, bringing amazing Snowmass genetics.

Inca Briar Hill

Saphire of Inca

Dynamo is a very well grown youngster, with lovely proportions and excellent fleece.
