Registered With: Kensmyth Talk of The Town - UKBAS22844

Date of Birth: 11th August 2013

Description:

KENSMYTH TALK OF THE TOWN or ?Totty? as she is known to her friends is adorable. She has a red hue from her mother who has produced all different colours. Totty should produce all colours too. Very curious and playful still but ready for mating. She is well grown and her fleece has a luxurious feel much desired. She would be a Bay Black under the new BAS colour listings. She is a worthy addition to any herd and will only be sold to go with others. Her Mother is vicuna colouring and is also for sale as we are moving to lighter colours and her mother no longer fits into our breeding program. Fully up to date with vaccinations, shorn, microchipped and ear tagged. Quarantine facilities available for Export. We are a closed herd, entirely Badger fenced, do look at www.kensmyth.com MUST SELL as reducing dark stock and focussing on whites to enhance our product portfolio - all offers considered
