His sire Limestone Rio is a champion brown male and has had great success in producing show winning coloured cria from white females.

Zaire has excellent conformation, a true macho in form and fleece. He has a calm personality and is easy to handle and gentle with his females.

He has covered many white females producing colour in most cases. All Zaire's progeny are tall upstanding cria, very elegant with great presence and good conformation. They share their sires beautiful head type and outstanding fleece quality.
