(taken on 28th May 2021 at 5 Years and 11 Months of age)

Fibre Testing Authority: Art of Fibre

Description:

Kernie is a good looking young male with good conformation and fine, dense, beige fleece (19.3 µ at 6 years old). His sire is our Westways Testament an award winning son of Bozedown Comet 11
He is a BAS-registered proven stud that produced stunning cria last year, with fine, long staple fleece. With his excellent genetics and proven fine cria, he would make a cost-effective sire for your herd.
We have been enjoying life with our alpacas for over 15 years now. From the beginning, we have seen them as part of our farm family and their health and welfare has been our first aim.
We have carefully selected outside studs to improve our herd, so our herd has the benefit of some of the best genetics. Over the last years we have bought in studs to join our herd, with all of them having champion fathers.
We halter train all our alpacas from 6 months which, not only being enjoyable for us, makes all handling easier, prepares them for showing or for eventual walking ventures with a new owner. Protection from harsh weather, biosecurity and calm, easy alpaca handling was built into the farm design. Manure is removed from paddocks and composted; alpacas

have annual vaccinations and frequent observation and condition, mouth and nail checks.
If you are wondering if alpacas are right for you, please feel welcome to visit and we can share with you our over 15 years of experience. We provide free delivery for up to 100 miles. Vet certificates can be provided if required.
