*(taken on 14th March 2017 at 2 Years and 5 Months of age)*

**Fibre Testing Authority:** Australian Alpaca Fibre Testing

### Description:

We have struggled with our decision to offer Beck Brow Bond 007 for sale. He has one of the densest and most well organised fleeces we have seen in an adult male. However we own his sire and have a number of new stud males with new genetics, so work on our farm would be limited. We have no hesitation in highly recommending this macho.

Beck Brow Bond is a stunning looking male who stands out in the paddock. He has a strong frame with perfect proportions and a very attractive head shape.

His fleece is fine and bright with extremely good density. The organisation of his fleece, presenting in matchstick size bundles, is exceptional. He also has a long, heavy cutting fleece with great coverage.

We believe Bond 007 is a male who is capable of taking the majority of females to the next level. Having a fawn sire Bond is highly likely to produce some coloured progeny from coloured females (Bond has a small fawn spot on his rump).

Bond's pedigree reads like a who's who of elite genetics. Sired by Timbertop CT Goldmine of Beck Brow, he has Patagonia Celtic Triumph, Purrumbete El Dorado and Shanbrooke Accoyo Tulaco on his sire's side. The pedigree of his dam is equally impressive with Jolimont Commisario and EP Cambridge Peruvian Ceaser amongst the stars.

1st fleece: 17.9, 4.0, 22.5, 99.5%

2nd fleece: 18.7, 4.2, 22.3, 98.2 %

Full medical history  
Fertility guarantee  
Vet certificate  
Enferplex tested before leaving the farm.

Based on a farm with high levels of bio-security in the very north of England.
