Fibre Testing Authority: Australian Alpaca Fibre Testing

Description:

Wyvern Apollo is a stylish male and proven stud who has produced outstanding cria. He has a good substance of bone and strong proportions that have carried through to his offspring, along with what has proved to be a defining trait of uniform solid black colour. Year on year he has produced a bright, fine and dense fleece with an excellent staple length and would be a great addition to any herd looking for a stud male with a proven genetic heritage.

Prizes Won:
