(taken on 2nd May 2018 at 8 Years and 9 Months of age)

Fibre Testing Authority: Australian Alpaca Fibre Testing

Description:

Harriet is a fine upstanding female with excellent bone and confirmation. She carries a lovely even coloured fleece which is dense and reasonably fine for her age. She is an excellent mother producing cria who are normally members of the Alpha show team. She currently has a beautiful dark brown female cria at foot who will be retained by Alpha for the 2018 Show Team. We are so pleased with this cria that the mating to Green Park Neptune has been repeated with a further cria due in June 2019. She is included in the Current Alpha Alpacas Three in One deal where by her purchase price includes her cria at once born, and a further stud service from one of the championship winning Alpha stud males of your choice. Thus she offers breeders an opportunity to access an excellent variety of genetics to enhance their herd. Alpha Alpacas is a bio secure herd. All stock for sale will be Enfleplex tested prior to sale.

Prizes Won:
