Description:

An imposing true-black pregnant female with great presence, from the Dovecote Jaquinto blood line. Sired by Alpaca Stud Nyetimber this female has all the qualities you would expect including substance of bone, excellent conformation, pleasing head type and a very dense, bright fleece, which is still fine at less than 24 micron

She has grey in her pedigree and all of her progeny are grey females!

She will be mated this season to Wealden Valegro (son of Alpaca Stud Nyetimber, grandson of Dovecote Jaquinto). An impressive grey male with a fabulously dense fleece.

This is a rare opportunity to obtain a high quality black female with a top pedigree, proven to produce grey cria.

COMPANION FEMALES - we have a small number of females available, suitable as companions to our pregnant females, should you not have the minimum recommended number of alpacas - which is three.
