Description:

Atkins Lylaibby is such a lovely female, calm, gentle and exceptionally easy to handle. She has a fantatic frame and beautiful head type. She always produces a long fleece with exceptional brightness. Her fleece is of a medium density and has a medium frequency crimp style. She carries an interesting mix of genetics which include Snowmass lines such as Snowmass xxxtreme and Snowmass Gold Charms. She has colour in her background which came through in her first son who was fawn. This is a rare opportunity to purchase a female pregnant to our imported male Siverstream Ozone of Sheriff. A superb male carrying a very dense, bright fine fleece with a beautiful style.

Name of covering male: silverstream Ozone of Sheriff (White)
Last Mating Date: 15th July 2018
Estimated Date Cria Due (Pregnant Female): 15th June 2019

Number of Crias bred from female: 1
