(taken on 11th October 2017 at 4 Years and 2 Months of age)

Fibre Testing Authority: Australian Alpaca Fibre Testing

Description:

Carna is a female with a strong frame and a stunning head type.

This is inherited from her sire EPC In the Groove of Wessex who sadly is no longer with us. He in turn was a Ruffo son who provided strong framed alpacas with a strong head type and substance of bone.

Carna has been mated this year to our champion Brown male Bozedown Rebellion and with this impressive set of genetics this cria should be interesting and an asset to any herd.

Also her genetic on her dame side are some of the best known Australilan lines : Purrumbete Drambuie and Purrumbete Highlander.

Her dam has produced grey and with grey also on the stud male used for this mating this females may be of interest to grey breeders.

**** Fleece shot is from the covering stud male Bozedown Rebellion ****

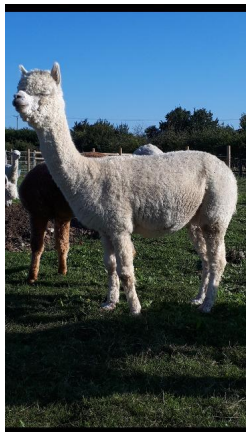

Name of covering male: Bozedown Rebellion (Dark Brown)

Last Mating Date: 30th August 2018

Estimated Date Cria Due (Pregnant Female): 30th July 2019
