Blood Lineage: Australian/Snowmass

Date of Birth: 9th September 2018

Description:

Flossy is a delightful, solid fawn, maiden female huacaya alpaca. Her fleece is a gorgeous apricot colour, and is extremely bright, with a high frequency crimp style. It is both very dense and highly organised, with great coverage, structure and length.

In addition to her lovely fleece, Flossy has a charming temperament. Her sire and dam both have an amenable nature, and are easy to manage. Flossy has appeared to have inherited this characteristic; is friendly, and will trustingly approach for a scratch!

Her pedigree is comprised of many generations of reliable and proven forebears (more comprehensive than is displayed on AlpacaSeller below). On her sire?s side her blood line includes, EP Cambridge Peruvian Spartacus, EP Cambridge Peruvian Caesar, and Jolimont Gianmarco (one of the most decorated males in the Australian show ring, who sold for a record $150,000 for a half share!). On her dam?s side she has strong coloured breeding with blood lines that include, Daer Enah?s Streslecki of EPC, Popham Thunder, Lillyfield Jack of Spades of Inca, EP Cambridge Peruvian Spartacus, EP Cambridge Strike Gold and Snowmass Sizlin Hot.

Flossy is true to type with a compact frame, strong bone, short nose and pretty head. Her conformation is correct, and she has a strong frame with a broad chest and hind quarters.

Another lovely young coloured female not to be missed!
