(taken on 29th April 2019 at 7 Years and 9 Months of age)

**Fibre Testing Authority:** Australian Alpaca Fibre Testing UK

### Description:

Bronze is a handsome, well proportioned stud with very strong features. He has very sturdy back legs, broad chest and solid headshape suiting the huacaya phenotype.

In 2018 we had 5 cria from Bronze: 3 female - 1 beige, 1 fawn and 1 brown and 2 black males. Thus proving he carries colour well. Overall we are really happy with his progeny and especially looking forward to seeing what his females can produce when they enter their breeding programme in 2020.

Sample statistics: Mean=39.70, CV=16.1%, SD=6.40, SF=37.17, CF=4.5%.

In 2019 we sheared Bronze's 8th fleece that weighed an incredible 5.19kgs- the average being between 2.5 and 3kgs. This shows his fleece has great density.

Bronze is available to purchase as a stud.

Bronze - Head

Bronze - Body
