(taken on 10th November 2018 at 9 Years and 9 Months of age)

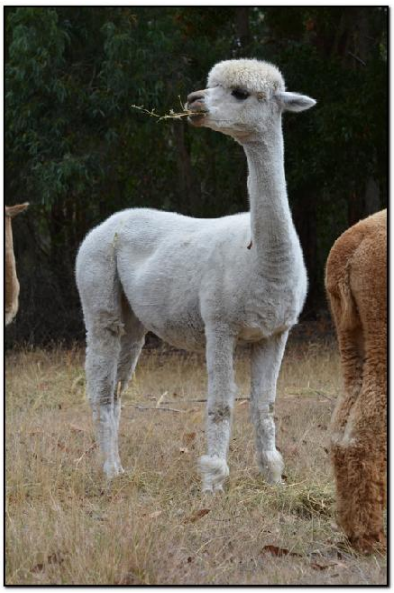

Fibre Testing Authority: Southern Tablelands Fibre Testing

Description:

Pandora is a minimally expressed appaloosa. She is a quality mature female who has produced 4 appaloosa and 1 white progeny (who is throwing appaloosa progeny himself), as well as our lovely 'Protea' who we are retaining in our breeding programme.
Pandora has an excellent frame and her fleece is quite impressive for her age with good density and structure, as well as fineness.
Pandora was not born here so unfortunately has not had the handling of our own. However, she is still an easy birther and a great mum.
If her last cria to 'Lago' is anything to go by, she should produce another quality cria for her new owners.
10th Fleece (Mic 21.7, SD 4.0, CV 18.4, CF 96.5%, CRV 51.2)

Name of covering male: Appaloosa Archipelago (Appaloosa)
Last Mating Date: 1st February 2019
Estimated Date Cria Due (Pregnant Female): 1st January 2020
Number of Crias bred from female: 6
