(taken on 31st May 2020 at 8 Years and 1 Month of age)

Fibre Testing Authority: Australian Alpaca Fibre Testing

Description:

Midnight Queen is an exceptional proven black breeding female.

She has a wonderful strong well balanced frame a lovely true to type head style and a great deal of presence about her. She has a blue black fleece which is soft and dense and grows a good staple length.

Her 8th fleece is still fine with an AFD of 23.5 and an SD of 4.9.

Her sire is the legendary Lillyfield Jack of Spades of Inca and she has the equally influential ATA Cambridge Centurion on her dams side.

Midnight Queen has consistently produced true black progeny.

She has now been covered by the dark brown Toft Timogen who is passing on his extreme fineness. Timogen has also consistently produced black progeny when put to a black female.

The quality of Midnight Queen can be seen in her exemplary show record.

Midnight Queen is a seriously good breeding female and although 8 years old she has many years of breeding left. With

the right male, and I think Timogen is the right male, she could produce something special.

Prizes Won:

2013/05 North Somerset Show.
