*(taken on 29th April 2019 at 11 Months of age)*

**Fibre Testing Authority:** Australian Alpaca Fibre Testing

### Description:

This is a unique opportunity to purchase into a bloodline that is hard to come by at a very affordable price. Houghton Kino is sired by the popular grey stud Houghton Noah II, an up and coming grey stud that is making a big impact on greys in the UK at the moment. We purchased Kino as a cria at foot with no specific plans for him, but he has matured into a promising young male. Unfortunately, we have no use of him here as he shares the same sire as our grey females, so we have decided to offer him for sale as we would rather see him have a stud career than keep him inactive.

Kino has a remarkable consistency throughout his colour, without any spotting across his entire body (only spots are mud at the moment!). Kino demonstrated a great ability to produce a large quantity of fleece with an impressive first shearing weight of 3.55kg. Although he is unproven due to his age, we are sure Kino has a bright future ahead of him as a stud in a grey breeding program. We are happy to offer a fertility guarantee.
