Description:

Norfolk based but can deliver Razzle Dazzle (or Razzy for short!). Razzy has done very well in the show rings and in producing beautiful cria. He's halter trained and friendly in the paddocks. We have members of the public visit us the majority days of the week and so he is used to people and is therefore approachable. He so far has produced 6 solid white cria in his working career; 2 male 4 female. 2 of which are currently living on the farm with us. We have one girl pregnant to him for summer 2020. We absolutely love Razzy but we have run out of females for him to breed with and we have made the choice to put him up for sale as it would be wasteful to not use him! If you're looking for a great white to add to your herd that has done well in his own right as a breeder and a fleece producer, but also has the characteristics of a trekking boy (good with the public, halter trained and will eat from your hand) then you'd be on the right path with Razzy!
