(taken on 21st April 2019 at 11 Months of age)

Fibre Testing Authority: Australian Alpaca Fibre Testing

Description:

Inca Majestic is a very smart male who has loads of style and presence. He has been bred from one of our precious Lavender Park Tully daughters and she brings added density and uniformity to this male.

As you can see from the photos and video clip, Inca Majestic moves well and all aspects of his conformation are correct. His fleece has very good density, brightness and is very soft. He does have a small white spot on his right rear leg but no white fibres have been observed through the rest of the fleece.

With such extremely high quality flowing through both sides of his pedigree, this male offers the very latest in black genetics for a very reasonable price.

Inca Majestic comes with a full veterinary health check and fertility guarantee. He is available for export and can be made ready with three weeks notice.
