Colour: Black (Solid Colour)

Registered With: UKBAS30056

Blood Lineage: Australian and UK

Date of Birth: 7th June 2016

Description:

We have finally taken the hard decision to retire from the world of alpacas, and have not shown or bred for the last couple of years. Just in case we had second thoughts, we had retained a couple of stud males, Prince and Balthazar, who we are now putting up for sale.

Prince of Darkness is an extremely well grown young male with tremendous potential. His sire is Wimmera Skies Class Act, who we imported from Australia, and is now resident in France, and his dam is Reddingvale Midnight Queen, a daughter of Jack of Spades. His sire and dam had excellent show results between them, including 14 first places, seven Colour Champions and four Reserve Champions, hence the genetic potential.

He has a compact head style, a dense and characterful fleece, with a heavy shearing weight. We will be sad to see him go, but he needs to release his full potential. He will be Enferplex tested before sale, and will come with a fertility guarantee. Delivery possible, and there is no additional VAT.

Prizes Won:
