(taken on 29th April 2019 at 6 Years and 9 Months of age)

Description:

Martinique is all we want to see in a breeding female, she has a really fine fleece which is lovely to hold and handle, a good long staple length and is beautifully fine and dense. She has correct and beautifully balanced conformation which she has inherited from her sire, EP Cambridge Courage.

Martinique is blessed in her breeding and can boast of inheriting fine pedigree genetics from both the EP Cambridge and Jolimont herds and her grand sire NWA Ltd Ruffo, a champion stud who was leader of his generation in producing superfine fleece. Her dam also brings into the mix the impressive Australian genetics of Penlan and Accoyo which makes this female something special indeed.

For 2019, Martiniques sample results showed:

Sample statistics: Mean=28.20, CV=21.0%, SD=5.90, SF=27.45, CF=71.3%.

For her 7th fleece we are really happy with these results and she continues to produce some amazing cria
For 2020 we have decided to pair Martinique to one of our other white studs 'HLN Helenia Galleron'. We haven't used this pairing before so we are really looking forward to seeing what they will produce.
White female 'Charnwood Forest Yenisei' sired by Wellground Close Encounter

Name of covering male: Helenia Galleron (White)

Last Mating Date: 3rd June 2020

Estimated Date Cria Due (Pregnant Female): 3rd May 2021

Number of Crias bred from female: 4
