### Description:

"Priscilla is a non breeding, halter trained female

Priscilla is an alpaca full of character and an animal that we have seen huge developments in since we have owned her. Once quiet, shy and reluctant to approach, she now comes for food and willingly eats out of your hand.

Although a non breeding female, Priscilla would make a great addition to your herd as an aunt. She has great maternal instincts and is great at looking after our other cria when weaning time hits.
