(taken on 28th May 2021 at 2 Years and 11 Months of age)

Fibre Testing Authority: Art of Fibre

Description:

Aria is an inquisitive, friendly alpaca. She has a superb fine dense fleece (16.6 μ in 2019, 17.8 μ in 2020 and 19.2 μ in 2021) with long staple length. She has had one white, male cria with excellent fleece qualities. She would be an excellent choice to add a high quality alpaca to your herd.

Our alpacas have been an important part of our lives since 2006 and we have seen them as part of our farm family and their health and welfare has been our first aim.

We have carefully selected outside studs to improve our herd, so our herd has the benefit of some of the best genetics. Over the last years we have bought in studs to join our herd, with all of them having champion fathers.

We halter train all our alpacas from 6 months which, not only being enjoyable for us, makes all handling easier, prepares them for showing or for eventual walking ventures with a new owner. Protection from harsh weather, biosecurity and calm, easy alpaca handling was built into the farm design. Manure is removed from paddocks and composted; alpacas have all vaccinations and frequent observation and condition, mouth and nail checks.

If you are wondering if alpacas are right for you, please feel welcome to visit and we can share with you our over 17 years of experience. We provide free delivery for up to 100 miles. Vet certificates can be provided if required.

Number of Crias bred from female: 1
