Registered With: British Alpaca Society

BNBAS14308

WATBASUK095

Blood Lineage: Jaquinto, Bozedown

Date of Birth: 15th June 2020

Description:

Monty is a calm young male with a fine in 2021: 21.2µ, characterful, long staple (135mm) fleece. His father is Classical Caspian, with Jacquinto of Alpaca Stud as his grandfather. He would be a good addition to any herd for either future breeding, fleece production or as a pet.

We have been enjoying life with our alpacas for over 15 years now. From the beginning, we have seen them as part of our farm family and their health and welfare has been our first aim.

We have carefully selected outside studs to improve our herd, so our herd has the benefit of some of the best genetics.

Over the last years we have bought in studs to join our herd, with all of them having champion fathers.

We halter train all our alpacas from 6 months which, not only being enjoyable for us, makes all handling easier, prepares them for showing or for eventual walking ventures with a new owner. Protection from harsh weather, biosecurity and calm, easy alpaca handling was built into the farm design. Manure is removed from paddocks and composted; alpacas have all vaccinations and frequent observation and condition, mouth and nail checks.

If you are wondering if alpacas are right for you, please feel welcome to visit and we can share with you our over 15 years of experience. We provide free delivery for up to 100 miles. Vet certificates can be provided if required.
