Beschreibung:

We are offering this stunning young female - the first coloured daughter to be released of our Australian import - Kurrawa Legends Bandido! This is a rare opportunity and she would make a great addition to any coloured breeder. This girl would have been on our National Show team but of course it has been cancelled.

She is certainly a 'standout female' she stands on a perfect frame with great bone and fleece coverage. Her fleece is very dense, fine and bright with great character and style. She has amazing staple length and is already over fleeced! She is also well grown so one would expect her to be mature enough to breed later this summer.

This girl also brings fantastic grey genetics to the table from her dams side, with her grand sire being the legendary Houghton Noah II. So with the correct breeding decisions there is a great chance of quality grey!

This is a very reluctant sale but we must make room for this years cria when they arrive.
