Blenheim Imogen

Medium Brown (Solid Colour) - Huacaya

UKBLHBAS00164 - Evadne AA of Atlantic (Import) (BL

Description:

Imogen is Emma's mother: although she is short but sturdy, she has typically produced good quality offspring larger than herself. Her fleece markings are like a Vicuna's, with a DF/LBR blanket but BG down her neck and under her tummy. She was born in 2005 and I have known her a long time, before buying her in the Blenheim dispersal sale. She is a very reliable breeder, getting pregnant first time, birthing without difficulty and producing consistently high quality offspring: the ideal female for a starter herd.

Imogen is currently spitting off.

Genuine dispersal sale.

Sadly all our alpacas need to find new homes ASAP due to retirement. Please contact us for more details of other alpacas for sale. Price negotiable in some circumstances or for multiple animals.
