Rasse: Huacaya

Farbe: Mehrfarbig

Registriert mit: BAS BNBAS12804

Blutlinie: Houghton

Geburtsdatum: 31/07/2019

Beschreibung:

After careful thought, Guinness is offered for sale as young intact male. He has fantastic genetics and is the result of the mating of our grey Champion, Rivenherd Amos who is by Salvador of Houghton and dam Houghton Selby. Guinness has a rose grey dam, Putjade Helena. He has a lovely dense fleece. This male is so mild mannered, easy to handle and no trouble at all. Once he matures and fills out he has the potential to become a stud and produce greys and fancies. Visitors to our farm are attracted to this boy by his lovely markings and sweet nature and we have had several offers to buy him although, up until recently, we hadn't considered selling him. We have, however, had a lot of alpacas born with patterned markings along with a lot of greys and unfortunately can't keep them all. He is microchipped and up to date with vaccinations and husbandry tasks. Guinness can be sold as part of a package if desired. Discounts given for more than one alpaca purchased.

Guinness full fleece
