Description:

Karis is a gentle and friendly young bay black female who was sired by the gorgeous grey male Rushmere Gregorius who's sire is the renowned grey, Alpaca Stud Nyetimber. Nyetimber is without question the most outstanding grey alpaca to be found anywhere in Europe. He has now won over 27 grey championships beating off all comers of all ages. Karis follows in her sires footsteps and has lovely conformation and a beautiful soft handling fine dense fleece. Her dam Rushmere Fleur is a solid dark fawn with colour running through her pedigree. Her impressive pedigree is made up of Chilean and Peruvian imports.

Karis would be an asset to any herd and who would bring great genetics and colour to the table. For the first time last year, she was put to our Futurity Champion grey stud, Bozdown Comanche and has recently had her first cria, a lovely bay black female, a similar colour to herself. THIS IS A GREAT OPPORTUNITY TO FLOOD YOUR BREEDING PROGRAM WITH GREY GENETICS

Karis birthed extremely easily and is an excellent mother with plenty of milk, also very protective. When she was due, we had just checked on her then looked again 40 mins later to find that she had given birth and the cria was already attempting to stand. The cria was quickly onto her feet and feeding while Karis stood like a frozen statue to let her new-born have her fill. Karis is BAS registered as a breeding female, microchipped and eartagged, easy to handle and up to date with vaccinations and husbandry tasks. Her cria will also be BAS registered as a breeding female. KARIS WILL BE SOLD AS A PREGNANT FEMALE TO OUR OTHER GREY CHAMPION RIVENHERD AMOS SO THE

PURCHASER OF KARIS WILL HAVE A WIDER GENE POOL WHEN SHE GIVES BIRTH TO HER SECOND CRIA.
We offer a guarantee a live cria on the ground (48hours) or a free return to service.

With a herd of over 90 alpacas to choose from. If required, Karis can be sold as part of a package to suit your requirements and budget. She is offered at a very reasonable price with no VAT to be added. We offer free local delivery up to 50 miles from our farm cost of fuel for distance.
