Description:

Fabulous opportunity 🌟 We are releasing one of our best producing females for sale.

Lane House Amethyst has been a core breeding female in our herd and has produced multiple championship winning progeny for us. And another reason this female is an absolute gem isn't just because she breeds quality, she also breeds very dark colours which isn't always common in whites. We have enough offspring to carry on this line so it's time for her to produce the goods for another breeder.

She has plenty of breeding years left in her yet and although she is currently open, she comes with a mating from a male of your choice. (We have several to choose from in various colours)

Amethyst is by far one of our densest females on farm with beautiful soft rolling skin. Her fleece is still exceptionally bright for her age with a lovely soft greasy handle.

She stands on a very square correct female with good substance of bone, short muzzle and true to type head style.

The consistency of quality throughout the different colours of her progeny is quite amazing and she should be considered by any serious breeder.

See pictures below of her and her progeny.

Sire: Classical MileEnd Tulaco Centurion
Dam: Arunvale Istas

DOB: 12/09/2008

Very reasonably priced.
Please message for more details.

Number of Crias bred from female: 7
