Geburtsdatum: 1/07/2019

Beschreibung:

Sheriff Chief is a really impressive male. Not only are his genetics high calibre but he has a fleece and frame to match. Chief has incredibly length, brightness and uniformity within the staple and across the body. He has good density and incredibly coverage which is carried on a strong frame and has a real macho look. We took three cross samples from his first fleece and they all came within the 16 micron and SD of 3.3. Impressive results indeed. This boy has great potential in a light breeding herd. He has started working late autumn and a real gentleman!

Gewonnene Preise:
