Sire: Classical MileEnd Caspian

Dam: Watership Cuprite

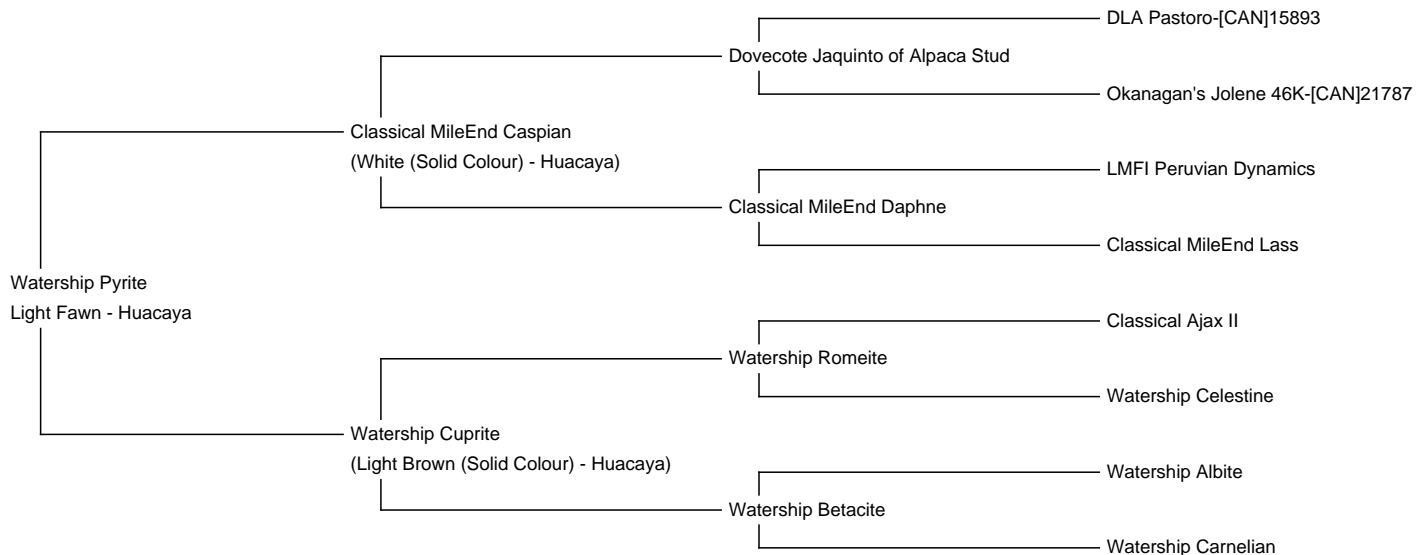

Type: Female

Breed Type: Huacaya

Colour: Light Fawn

Blood Lineage: Jacquinto of Alpaca Stud

Date of Birth: 12th July 2021

Description:

Poppy is a bright, young female with a fine, beautiful light fawn fleece and dark eye surrounds and nose! She has not yet been sheared. She would make an excellent breeding female, as she has the exceptional Jacquinto of Alpaca Stud genetics. If you are looking for a recently weaned cria to raise yourself, Poppy would be a good choice. Halter training will be ongoing at Watership.

We have been enjoying life with our alpacas for over 15 years now. From the beginning, we have seen them as part of our farm family and their health and welfare has been our first aim.

We have carefully selected outside studs to improve our herd, so our herd has the benefit of some of the best genetics.

Over the last years we have bought in studs to join our herd, with all of them having champion fathers.

We halter train all our alpacas from 6 months which, not only being enjoyable for us, makes all handling easier, prepares them for showing or for eventual walking ventures with a new owner. Protection from harsh weather, biosecurity and calm, easy alpaca handling was built into the farm design. Manure is removed from paddocks and composted; alpacas have all vaccinations and frequent observation and condition, mouth and nail checks.

If you are wondering if alpacas are right for you, please feel welcome to visit and we can share with you our over 15 years of experience. We provide free delivery for up to 100 miles. Vet certificates can be provided if required.
