Registered With: British Alpaca Society

Blood Lineage: Australian

Date of Birth: 27th May 2015

Description:

Chestnut Farm Amber is one of our Lord of Sherwood daughter's, her dam is Wellground Buckingham's Alice, who was sired by Cambridge Buckingham, so this female has got some fantastic genetics in her ancestry.

Amber has been part of our core herd for several years now and has produced six daughter's for us, two are white, the other's are all mid to dark fawn or brown.

Amber is sold with a mating to our light brown stud male Inca Nobleman.

Amber is a fantastic mother and always feeds her cria well and has always birthed easily.

Amber is mid fawn in colour and has a lovely dense, bright, soft handling fleece with a high frequency crimp, she has a strong and correct frame and a true to type head.

This female would be an asset to any herd wanting to add some high quality genetics.

We offer a full after sales and support service and are always happy to help with any questions you may have.

Number of Crias bred from female: 6
