(taken on 2nd July 2021 at 1 Year and 1 Month of age)

Fibre Testing Authority: Art of Fibre

Description:

Chestnut Farm Clover is a lovely solid white young maiden female who is sired by our stud male Beck Brow Ammunition, her dam is Chestnut Farm Fern who is one of our Lord of Sherwood daughter's so this young female has got supreme champion grandsire's on both sides of her ancestry.

Clover is a lovely well grown young girl who has correct confirmation on a solid frame and a true to type head.

Clover is solid white in colour with a lovely dense, bright, soft handling fleece with a bold style crimp that is consistent throughout the blanket and into the extremities.

This young female will be an asset to any herd wanting to add some quality genetics, her dam and grand dam are both fantastic mother's and we expect Clover to be the same.

Clover will be sold with a mating to our light brown stud male Inca Nobleman, his first cria are due in 2022 and we are very excited to see what he is going to produce for us.
