Description:

Oriontree's Satina is the second Oriontree daughter of the AOA Jupiter x Greenside Suri Spring Flower cross. We only wish to keep a couple of suri girls in our herd, so have decided to part with either Satina or her dam.

Satina is a lovely girl, inheriting her dam's density and silky handle. She is sweet and curious and will sniff your nose in the field if you stay still enough.

She will be halter-trained at weaning and will be desensitised to touch. She will be able to produce colour when mated to a coloured male.
