Black (Solid Colour) - Huacaya

Potters Farm Jade

(Dark Brown (Solid Colour) - Huacaya)

Description:

Lovely unusual coloured female. Says black on BAS Registration as was Black as cria at time of registration. I would say she is more modern grey in colour. Diamond always grows a big abundance of lovely fleece. Nosey inquisitive nature. Diamond has great potential for breeding a grey cria if she was mated with a grey stud specially as her sire is grey and there is lots of grey in her pedigree on both sides. Diamond's mum Jade is brown and has bred 3 beautiful medium grey female cria for us.

Not mated only due to our lack of time.

Priced to sell, not a reflection on quality but a need to reduce herd size.

See our website or alpaca seller to see more females for sale. (We have approx 30 females for sale). Nice quality females with discounts available for 3 or more alpacas purchased.

See our website www.winwickbarnalpacas.co.uk and our Facebook page

All females up to date with husbandry. Vaccinated and ready to go to new homes.

Near Huntingdon, Cambs

Cambridgeshire is in a Low Risk Area (LRA) and has a low incidence of bovine TB and no recognised significant reservoir of the disease in wildlife.

We take biosecurity very seriously with double perimeter fencing. We haven't shown our alpacas since 2017. We have previously done voluntary TB testing and tested all clear. We are in 4 year testing area.
