Description:

We were hoping to introduce 'Lockie' into our breeding program however we only have a few females with suitable genetics to breed with him and they have been non receptive! As such we have made the decision to offer him for sale.

He was very keen to work, although having no success he is also a good candidate to train for walking.

We had an expert assess the fleece last year at 23mic, we can arrange an official test for genuine interested parties.

We can also offer Benji, his field mate as a package.
