Description:

Lane House Chieftain 🌟 Solid White Potential Stud Male.

This young upcoming male is a very exciting prospect, he is from the best of both worlds.... Kurrawa Legends Bandido as his sire and out of a multiple champion light General daughter.

He had 'the look' ever since he was born and he hasn't disappointed now as an intermediate.

The most incredible thing about this male is the density, wow! This male has one of the densest fleeces we've ever had. Cutting almost 4kg of blanket as a junior. Along with this he is fine with good uniformity and brightness, he has a high frequency, high amplitude crimp style which is very 'buttery' to touch. He is exceptionally well grown for his age and very macho! Strong boned with good chest capacity with a short true to type head style.

As he is very mature and 'well developed' we expect him to work spring of 2023.

This is an exciting opportunity for a breeder to acquire these exceptional genetics at a very reasonable price.
