Description:

Lane House Defiance is a stunning young male.

He has the most exceptional staple length that I have seen, along with a superfine, dense buttery fleece. He has a high frequency medium amplitude crimp style which is very uniform across the body. He has very low primary to secondary fibre ratio which give his fleece the most beautiful handle. He stands on a perfect frame, good bone and chest capacity with a true to type head with excellent fleece coverage. He has so far done very well in the show ring and will continue to be part of our show team until he is sold. Unfortunately we already have these genetics in our herd so he wouldn't get the work he deserves. He is a well grown strong male and we expect him to work in the spring of 2023.

Sired by our Australian Import - Kurrawa Legends Bandido. From a multiple champion light dam, he has some very exciting quality coloured genetics behind him.
