18.80μ SD 3.90μ CV 20.90% % Over 30 Microns(μ) 1.40% SF 18.30μ Curvature 46.60 deg/mm

(taken on 2nd November 2021 at 4 Years and 8 Months of age)

Fibre Testing Authority: Southern Tablelands Fibre Testing

Description:

What exceptional fleece stats this girl has! At 4 years of age she has a 18.8 micron fleece with an SD of 3.9. She has consistently held her low micron whilst feeding cria etc. Fairytale has a correct frame, is an easy birther and feeds her cria well.

We are retaining two of her daughters in our breeding programme, hence why we are willing to let her go.

With a joining to any of our proven stud males included in the price this is a great opportunity to purchase a pregnant quality female.

Prizes Won:
