(taken on 5th May 2022 at 2 Years and 10 Months of age)

Fibre Testing Authority: Australian Alpaca Fibre Testing

Description:

Ceasefire is a product of our limited but targeted dark breeding programme. He shows all the physical qualities of his sire Wildfire and his dam Alpaca Stud Soots, who is an Alpaca Stud Benjiro daughter. Perfectly balanced, excellent substance of bone, strong in frame and with all the body capacity needed in a working male who at first sight represents the Huacaya breed type at its best. At close viewing his fleece does not disappoint, fine, highly organised, bright and uniform both in staple and across the body, with enviable staple length it is no surprise he is heavy cutting. Ceasefire has shown results that have supported our assessment of him and offers a fantastic opportunity for those breeders looking for new black genetics. He has proven fertility.
