(taken on 8th May 2022 at 1 Year and 11 Months of age)

Fibre Testing Authority: Art of Fibre

Description:

An outstanding and promising young male Redens Explorer is the full brother of his two well known siblings Redens Agamemnon and Redens Churchill both multi colour champions. Sired by Surtierra Shadow and with Redens Vogue as his mother he promises to produce attractive cria. He is the only true black sibling from the pairing of Surtierra Shadow and Redens Vogue and carries Accoyo genes from his mothers line. Explorer is a lovely male who is easy to handle and has a bright true black fleece that feels soft to touch and is really dense. With his father, brother and his brother's son Redens Dynamic in our breeding programme we are not able to give him enough work at our Redens herd although he has three of our top females due to produce his offspring in 2023. Carrying the genes of some of the most famous black huacaya sires along with Accoyo Tullaco genes he promises to be an exceptional herd sire. Explorer has an excellent conformation lovely and true black fleece is very similar to his father Surtierra Shadow in looks and presence. He has

been colour tested with the Futuregen genetics test and has the potential to produce true black offspring.
